

Digital Photography 101

Teacher: Miguel Pimentel

Ages: 8 years & up

Time: 12:35 – 1:05

Number of students: minimum 3? maximum 20?

Teaching Text: I have several books on the subject

Supplies needed: Digital Camera, Computer?, Project board, tacky spray

Supplies provided: I will bring a Laptop with a card reader.

Extra Cost: none

Description: This class is about using the digital camera (and the digital medium) to its potential. This is an introductory class so the focus is on the basics but, I'd like to use the basics to introduce advanced concepts as they come up.

This class will teach students: How to use a Digital Camera, Composing an image, avoiding pitfalls associated with shooting digital, etc.

They will be responsible: For taking ~10 images between meetings, uploading the images to the flickr group (if they have permission) and coming up with nice pictures.

They will be given: Access to a laptop with image editing capabilities
