

Speech

Teacher: Amy Laslo

Grade level: teens

Time: 10:20-10:50am

Teaching Text: Business and Professional Communications

Supplies needed: Paper and pen or pencil would be helpful to have a computer to write speeches but not necessary if one is not available and a flash drive to save images for visual aids

Supplies provided: I will be handing out a range of different handouts for the students to look at

Extra Cost: None

Number of students: minimum - 2 maximum - No maximum

Description:

Students will learn to become comfortable speaking in a group environment and will learn the proper techniques involved in giving professional speeches. May involve some friendly debate between students.

They will be responsible: For coming to class on time, asking questions (though I will do my best not to go too fast and help everyone understand), reading handouts, giving speeches and having a good time

They will be given: Assignments to complete such as writing a speech and delivering it in front of the class with limited use of visual aids and certain handouts

It will also be helpful if: Students have access to a computer to type their speeches and a flash drive to save images on in order to make the speech look more professional, a laptop will be provided to present the speech. These are NOT necessary, only helpful. I will work with students completely.
